

EDUCATION

MPSTME, NMIMS University B. Tech - Mechatronics CGPA: 8.72	2022 - 2026
NKES DEGREE COLLEGE OF ARTS, COMMERCE AND SCIENCE HSC: 62.83 %	2020 - 2022
The Universal School Ghatkopar Igcse: 66.28%	2020

PROJECTS

Automated bottle segregation and packaging

Plastic waste management has emerged as a critical global challenge due to the increasing consumption of plastic products and inadequate recycling systems. Among various types of plastic waste, plastic bottles contribute significantly to environmental pollution, especially when they are not properly segregated and processed. Manual segregation methods are time-consuming, labor-intensive, and prone to human error, often resulting in low recycling efficiency and poor-quality output. To address these limitations, this project proposes the development of an automated system for plastic bottle segregation and packaging, designed to enhance the efficiency, accuracy, and scalability of the recycling process.

CORE SKILLS

Technical Skills

- AutoCAD
- Solid works
- PCB Design
- Arduino
- Microcontroller – 8051
- Python
- MATLAB
- Tinker CAD

Soft Skills

- Exemplary Leadership
- Team Building & Cohesion
- Efficient Management
- Resilience Under Pressure
- Strong Work Ethic
- Punctuality

ACHIEVEMENTS

- Social Conclave 2025: Chairperson
- Social Impact 24-25': Secretary
- Social Conclave 2024 (Artist and guest management): Head
- Sattva'25 (Artist and guest management): Head
- Taqneeq'17.0 (Artist and guest management): Crew
